

# TITAN RESEARCH

## Introduction

Titan Research is a SCP-based horror map in which the map creator practices custom modeling and map-making tactics in attempt to create an ultimate horror experience.

## Story

You play the role of Johnathan Adams, a middle-aged father who has recently lost his son due to an apparent abduction murder. Having struggling financially and emotionally, you only take a couple days off then get back to work. Now you need to complete your next commission.

## Setup

Brightness: Moody
